

Would You Put Their Rights To A Vote?

Q: Should young and middle aged people be able to determine the basic rights of senior citizens?

A: **No.**

Q: Should able-bodied people be able to grant or withhold basic rights to people with disabilities?

A: **No.**

Q: Should the majority who believe in God be able to decide what basic rights to accord atheists and agnostics?

A: **No.**

Then why should the rights of gay men and lesbians be decided this way?

Gay people's basic right to equal treatment under the law should not be determined by a majority vote in a secret ballot. This is not democracy. It's more like majority tyranny.

Don't Amend the Constitution. Defend It.
