

Activist group takes piss out of Peter

February 12, 2009

We have never been prouder of the Task Force:

Support the homosexual activist agenda!

When the ultra-conservative group Americans For Truth About Homosexuality expresses serious concerns over the *"thousands of left-wing, grassroots activists [who] attend these annual 'Creating Change' conferences"* — you know we're doing something right.

Creating Change is an absolutely unique and vital training ground for lesbian, gay, bisexual, and transgender activist leaders. And the Task Force couldn't be prouder of our role in propagating *"the homosexual activist agenda"* as the hosts and organizers of Creating Change for over 21 years.

Simply fill out the fields below to make your tax-deductible gift, and we'll send Americans For Truth About Homosexuality one giant THANK YOU card, letting them know just how many of our supporters have made gifts in their honor.*

Thank you so much for being a part of the Task Force!

Contributing to equality/ thanking a far-right spokesperson for the unique role he plays in helping us achieve the same. We think we deserve a cut of that money, NGLTF ;-)
