CREATING CHANGE IN ACTION

A STORY OF LASTING, TRANSFORMATIVE CHANGE

HOW PRISM FL BEGAN BUILDING THE NEXT GENERATION OF LGBTQ+ LEADERS IN FLORIDA

PRISM FL is **Florida's largest youth-led LGBTQ+ organization**. Their team of organizers, advocates & educators serves across South Florida.

Creating Change has been a critical part of their journey.

In 2020, when PRISM FL first attended Creating Change, it was just a small volunteer-led group with a handful of young new leaders.

Through leadership training workshops, networking with peers from across the nation, & participating in the Conference Leadership Caucus, PRISM FL's team developed the knowledge, confidence, & relationships needed to grow their organization & expand their impact.

"I would not be where I am at 23 years old, leading the largest youth-led LGBTQ+ nonprofit in the state of Florida, without the connections, experiences, and community I've gained from my years at Creating Change."

Maxx Fenning, Executive Director, PRISM FL

Over 6 years of participation...

- PRISM grew as a small volunteer team into a multi-staff nonprofit.
- 12 youth leaders and staff members have attended Creating Change and brought new skills back to their communities.
- PRISM began using Creating Change as an annual staff retreat and leadership development opportunity.
- PRISM facilitated its first Creating Change workshop in 2026, helping advocates nationwide learn strategies for school board organizing and local advocacy.

**This is what becomes possible when we invest in our communities.
This is what becomes possible when we invest in emerging leaders.
This is what becomes possible when we invest in young people.
This is Creating Change.**
